

# THE KIDS TO KIDS PROGRAM

«Thank you very much that I can go to school.»

**“Investing in the education of a child is investing in a peaceful future for Africa”**

## Tegla Loroupe

born in West Pokot, Kenya  
2-time Marathon Worldrecordholder  
UNICEF Ambassador  
UN Ambassador for Peace & Sports

*“Education is the greatest challenge facing the Pokot people. Education is the greatest tool that will free the community from the bondage of the gender development, poverty and illiteracy. Children face the greatest challenge as far as suffering and neglects is concerned.”*

## About the Project

**“Kids to Kids” Children** is an initiative that The “Tegla Loroupe Peace Foundation” and the “Oneness-Heart Tears and Smiles” are promoting as a way for school children to reach out and help other children in their time of need.  
[www.kids-to-kids.com](http://www.kids-to-kids.com)

## Sponsorship

**“Kids to Kids” Sponsorship** gives adults in Western countries a personal friendship with a child from Africa. Through personal letters, e-mails, and pictures you can share the gift of your relationship. Your encouraging words and care will show your heart’s love.

### Sponsor a “Kids to Kids” Child

**For CHF 40.– / EUR 33.–** a month you can make a difference in the life of a child: keep it away from wars that we see in the news about Africa and give the child some of the bare essentials of life: clean water, nutritious food, basic health care and the opportunity to go to school.

I would like to support a  
“kids to kids” child

# Tegla Loroupe Peace Foundation

*A peace and development organization, founded in 2003 by Tegla Loroupe, a renowned sporting icon, to promote peaceful co-existence and socio-economic development of the poor and marginalized individuals and communities in the Greater Horn of Africa.*

*The Foundation aims at supporting initiatives that promote conflict resolution, peace building, education, environment and poverty reduction (including violation of human rights, especially female genital mutilation – FGM).*

*Based on the achievements of TLPF of 9 years, it is worthy of note that the Foundation plays a vital role in peace building and in sustaining a culture of peace in its region of operation. The foundation also improves the livelihoods of reformed warriors (those who have voluntarily surrendered their firearms and embrace peace) through the programs of farming, business and other health programs among them advocacy for the girl/boy child and HIV/AIDS.*

# Tegla Loroupe Peace School

The Foundation has established a peace school in Kapenguria that is intended to host 600 pupils in a boarding school. The school will act as a center that promotes education, recreation and build children's capacity to excel in sports.

The construction began in 2005 and at the moment, a one storey tuition block containing 16 classrooms is complete and with the 10 classrooms already occupied, with 216 children already in school.

## The school offers the following:

- Educational opportunities to children displaced and or orphaned by conflict and HIV/AIDS in the pastoral communities
- A rescue centre for girls at risk from female genital mutilation, early/forced marriages by giving them a safe haven.
- Enable children unlearn the war values and the enemy attitude by mixing children from various warring communities and nations
- A peace education syllabus as part of its overall teaching curriculum
- Gives parents from various warring communities an opportunity to interact
- A training facility for the talented youth from these communities.

*The school building was built by Tegla Loroupe with the help of the following sponsors, who will also help her to finance and inspire other people to support more school children in her Peace school.*

# Partners & Sponsors

- The Foundation Prince Albert de Monaco
- YPI – Monaco
- Tegla Loroupe Garda Bresciano
- "Kids to Kids" (OHTS)
- The Charitable Foundation
- On – Swiss engineered running shoes
- UCB Pharma
